

Cartland Berge Project (Fall 2016)

Cartland Berge

Hurley Convergence Center Building Manager

University of Mary Washington

540-654-5991

convergence.umw.edu

I'm interested in a web application that would allow users who make reservations in the Digital Auditorium to drag and drop tables, chairs, and other equipment into a floor plan to indicate how they would like the room set up for their event. The application would need to save or email a copy of the floor plan that I could then pass on to student workers to complete the set up.
